

Being the Presence of Christ

Go + Tell - Neighborhood
Prayer + Discussion Guide

As a group, make sure you take time to enjoy your fellowship and getting to know one another.

Discuss the following together. If you have children in your group, be sure to include them in sharing their thoughts, observations, and ideas for sharing Jesus with their neighbors.

- Think about your neighborhood. What are some characteristics you can identify of those who live around you?
- Think about your neighborhood's social interaction. What are some times, places, or events that seem to pull your neighbors out of their houses and into community with one another?
- Brainstorm together about some ways to meet your neighbors where they already are. How can you connect better in your community and help others know the presence of Christ?
- What are some creative ways to begin actively welcoming your neighbors into your hearts and homes in order to build fellowship and to share life?

Take time to pray over your neighborhood, the people, and God's mission for you where you are.
